2. In addition, we discussed the desirability of being able, at the time of our 1976-1977 Program Review with the Director, to do a wrap-up on the various studies each of you were asked to undertake in the Director's Financial Guidance memorandum last August. In order to do that, we will need either copies of the studies themselves (except those which have already been sent by you to the DCI) or a summary of their status which will permit us to remind the Director what recommendations he has already approved; what he can still expect will be submitted for approval; and what problems or dilemmas are posed by others together with your thoughts about any further action or follow-up which you feel would be appropriate in individual cases. If we are to hold to our schedule for developing the Agency program, we should have your summary statements no later than 13 June.

25X1
